

28.02.20

Dear Parents,

This week the children have been busy learning through the story of Oliver's Vegetables. They have carried out lots of lovely activities including: exploring the soil and vegetables in the tuff tray; making repeating patterns through vegetable printing; exploring where fruit and vegetables come from and sorting them; observational drawings of vegetables; weighing fruit and vegetables and counting vegetables into Grandpa's vegetable patch. We also really enjoyed learning about Pancake Day; the children practiced flipping pancakes, making pancakes with the playdough, counting toppings onto pancakes and of course trying a little bit of pancake! We had a lovely circle time discussing which toppings we would choose to put on our pancake!

This week we have recapped numbers to 5; counting sets, counting out sets, finding the total of two sets, adding two sets and subitising. Next week we will continue with Ten Town. We will be learning all about the number 6!

The sound we have been learning this week is 'i'. We have learnt the letter name and the sound. We have also been looking at objects that start with the 'i' sound and have been sorting objects according to what sound they start with. We have also been using our "robot arms" to sound out words e.g. s-i-t, p-a-t, t-a-p, t-i-p.

Up the insects body, down the insects body, dot for his head.

A reminder of useful links for phonics:

A reminder please that sweets, such a maoam and haribo, are not put in children's lunchboxes and are instead left as a treat for home.

I hope you have a lovely weekend.

Many Thanks,

Miss Griffiths.

Oliver's Vegetables

Home Learning Challenge

Make a picture diary to show all of the fruit and vegetables you eat in one day.

Draw pictures of a fruit that grows on a tree and a vegetable that grows under the ground. You could have a look in some books, on the Internet or talk to a grown-up to find out.

At the beginning of the story, Oliver only liked to eat chips and French fries. Talk to a grown-up about why this isn't a healthy diet. What sort of things do you need to eat and drink to make sure you have a healthy diet?

Oliver's grandad grew 5 carrots. Oliver ate 3 of them. How many carrots were left? You could draw pictures or use your fingers to help you work out the answer.
